

IASCT Academic Connect

Hosted by Loyola College

About IASCT: Indian Association for Statistics in Clinical Trials (IASCT) is a non-profit professional organization founded with the objective of enhancing the role of statistics in the pharmaceutical industry and clinical research. IASCT aims to enable professional development of statisticians and statistical programmers by organizing training sessions, meetings and conferences related to statistical techniques used in drug development. To know more about IASCT, please visit our website: <https://iasct.net/>

The objective of the **IASCT Academic Connect** is to create a platform to interact and discuss on the role of statistics and programming in drug development. The event is expected to create dialogue between Academia and Pharmaceutical industry on the opportunities for students from Statistics, Computer Science and Life Sciences disciplines and professional skills required for data analytics in Pharma industry. The event also intends to provide a platform to develop academic and industry partnerships in clinical research, innovation and pedagogy.

IASCT sincerely thanks **Loyola Management** for hosting the first event of the initiative.
