

Indian Association for Statistics in Clinical Trials

‘R’ Q&A session

Indian Society for Statistics in Clinical Trials (IASCT) is pleased to announce a Q&A session on ‘R’, in follow-up to the ‘R’ workshop from February 2020.

This will be a short interactive meeting with the trainer, Dr. Deepayan Sarkar and participants from the last workshop, where he will be taking up questions from the audience.

In addition to the skills and knowledge acquired during the 2-day session in February, the participants would have engaged in hands-on experience within their respective organizations. With that in mind, this interaction will focus on sharing user experiences and getting the resolutions for their queries.

Trainer:
Deepayan Sarkar

Deepayan Sarkar is an applied statistician with particular interest in computational statistics and data visualization. He has several years of experience as an R user and developer and is a member of the R Foundation. He did his PhD in Statistics from the University of Wisconsin-Madison and is currently an Associate Professor in the Statistics and Mathematics Unit at the Indian Statistical Institute, Delhi.

Date : 28th Sept, 2020

Time : 2:30 - 4:30 PM

Join via : Online meeting

(meeting link will be sent in a separate email)

Time	Agenda
